Memo No.Ch-27/TR-72(90)Vol.XI
Dated: - 14.2.2008

Sub: Use of CFLs on new connections.

As an austerity measure to consumer energy through efficient use vide sales circular No.U-45/2007 dated 15.6.2007, it was decided to make the use of CFLs/Energy efficient lighting appliances mandatory for new electric connection in all categories.

However, HERC during hearing on 30.1.2008 has desired that for the time being, consumers should not be forced to use CFLs/energy efficient lighting system. Instead, they should be persuaded and convinced to opt for energy efficient lighting system/appliances in their own interest and in the overall interest of the Nation.

It is, accordingly, decided that the prospective consumers should be persuaded/educated to install energy efficient lighting system instead of forcing them to do so.

The above instructions should be brought to the notice of all concerned for careful and meticulous compliance.

General Manager/Comml.,
UHBVN, Panchkula.
