Memo No. Ch- SPL-I /Billing-141

Subject: - Billing of consumers connected on independent feeders.

Some of the consumers under HT industrial, NDS and Bulk Supply
categories have been provided electric connection through independent feeders at
various voltages.

The above aspect is also covered in the HERC Regulation no.
HERC/12/2005 dated 26th July 2005 on duty to supply electricity on request, Power to
recover expenditure incurred in providing supply & power to require security. As per
the provisions of sub regulation 4.5.3 of the principal regulations, the billing of such
consumers should be done on the basis of consumption of energy meter installed at
the sub-station, from where the independent feeder is emanating.

In view of the above HERC regulation, hence forth, it should be ensured
that the billing of consumers connected through independent feeders is done on the
basis of consumption of energy meter installed at the sub-station. In cases where
meters are not installed at the sub-station, the needful be done within a week
positively. The reading of meter installed at the consumer premises should also be
taken for comparison purpose. The operation staff should conduct accucheck on
consumer meter every month and the M & P staff should conduct accucheck on feeder
meter every month.

The above instructions may be brought to the notice of all concerned for
careful and meticulous compliance.
